In honour of Professor Mitsuo Matsushita's intellectual contributions to the field of international economic law, *International Economic Law and Governance: Essays in Honour of Mitsuo Matsushita* reflects on the current state and the future of international economic law.

The book addresses a broad spectrum of themes in contemporary international economic regulations and focuses specifically on the significant areas of Professor Matsushita's scholarship, including the rise of the soft-law mechanism in international economic regulation, the role of the WTO and dispute settlement, and specific areas such as competition, subsidies, anti-dumping, intellectual property, and natural resources.

Part one of the volume provides a comprehensive and critical analysis of the rule-based international dispute settlement mechanisms; Part two investigates the normative influences to and from WTO law; and Part three focuses on policy and law-making issues.
